DETAILED ACTION

1. Applicant's addition of 47 claims to the application as originally presented has necessitated the restriction that follows.

Election/Restrictions

2. Newly submitted claims 20-27 and 29-51 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the core/skin construction is a patentably distinct structure not present in the claims as originally presented.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 20-27 and 29-51 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. Claim 1 is generic to a plurality of disclosed patentably distinct species comprising:

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species.

4. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to

be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
